

SWIFT CLINIC

(Swallowing Intervention/Feeding Therapy)

Providing specialized feeding and swallowing therapy for children (3+) through adults as an ongoing clinical service.

About The SwIFT Clinic:

The Swallowing Intervention/Feeding Therapy Clinic (SwIFT) offers dysphagia intervention and education for children, adults, and caregivers. We provide evidence-based treatment for feeding and swallowing challenges and serve as a community resource for:

- Swallowing dysfunction education
- Diet recommendation guidance
- Compensatory & restorative therapy techniques

Why Choose SwIFT?

- Small client-to-clinician ratio
- Personalized treatment plans
- Home-practice program provided

****For pediatric clients, a physician referral is required.**

For adult clients, a MBSS/FEES report or a bedside swallow evaluation from the client's previous SLP encounter is required. **
