FY 2018 One Time Funding Request

Veteran Services

Vision

UH Veteran Services will provide student veterans with the highest level of support and dedication, fostering personal growth and academic success through graduation and rewarding careers. In doing so, we will strive to be a benchmark institute and a leader in veteran support and advocacy.

To ensure that we have adequate funding to continue to serve our Military- Connected Student Population at a high level Veteran Services is requesting SFAC's continued support and a one-time allocation request to cover our programming costs. This one-time allocation takes into account the newly acquired financial costs to plan and host programming to honor and memorialize the events on 9/11, and to accommodate the increased demand of programming by our military connected student population. As our nation continues to draw down troops engaged in war efforts overseas and as The University of Houston continues to rise a top choice for military and veterans we anticipate these numbers to steadily rise.
