Challenges

CAS External Review Finding:

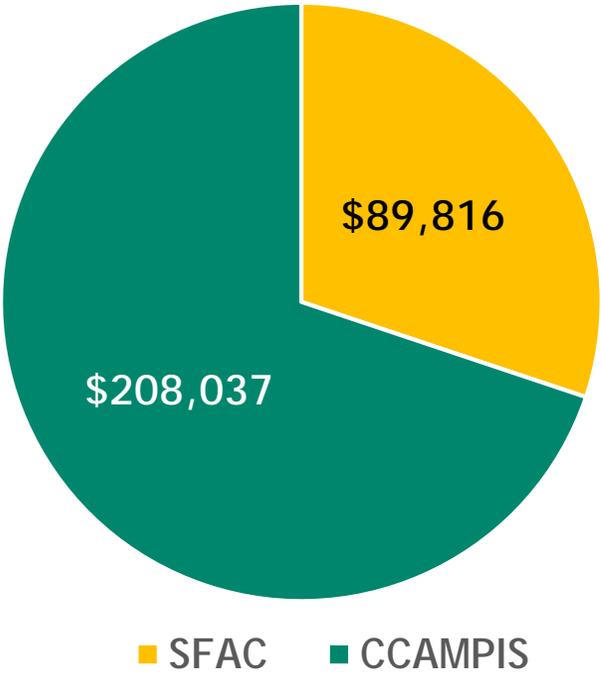

“Every group we met with mentioned the **outdated facilities** as well as the need to house the CLC program in one central location with newer facilities. This will help with the current issues reported as well as easing the double drop-offs for some parents and **providing a cohesive environment** for all staff where they each feel connected. It would also help with the **Emergency Preparedness** plan, eliminating the need for the restroom being the only safe space for the children to shelter in place in the event of an emergency.” February 2017
