

**Additional One Time Request
FY24**

Coog Radio has been evolving since last year. We have instituted a Team system for members to get hands-on experience (in marketing, web, engineering, music, and programming), completely redesigned our website and branding, and have revamped our inventory (music, equipment, and offices!) processes to make them both more detailed and more efficient.

—

Our officers started this year’s work during the Summer and have been changing Coog Radio for the better ever since. We’re incredibly proud of the work we’ve done so far, and we look forward to discussing our requests with SFAC and how our changes have impacted our organization and the University through Coog Radio. If you have any questions regarding our One-Time Requests, I’d be more than happy to answer them for you during our presentation.

B. FY24 Additional One-Time Request Communications & Software Funding

We’d like to request funding to upgrade our software and communications operations. In the communications industry, new technology is being relieved constantly. As a program that gives UH students professional experience, it’s important for students to learn with software used in professional environments. In addition to the educational benefits, these additions to our systems would also increase the quality of radio streaming for our listeners.

FY24

BPM Supreme, \$35 x 4 months.....	\$413.88
